EZ LIVE PRODUCTIONS

CONTAINER LED VIDEO WALL

A full video wall. Anywhere you can park it.

A P2.6 LED wall, control room, and PA system built into a 20 ft shipping container. Pull in, open the doors, and you're on screen.

RAPIDLY DEPLOYABLE

Call 303-601-0623

WHAT IT IS

Everything in one box.

The screen, the control room, and the sound all travel together inside one steel container. No stage build, no truss, no scattered gear.

20 ft

Self-contained

Built into a standard 20 ft shipping container that protects the wall on the road and on site.

P2.6

Sharp up close

Fine pixel pitch keeps maps, drawings, and text readable for the front row.

In / Out

Indoor or outdoor

Bright enough for a sunny gravel lot, at home inside a shop or warehouse.

Built in

Control room + PA

Full control room suite inside and a PA system included, so you can be heard as well as seen.

WHERE IT WORKS

Wherever the crowd is.

Construction safety meetings

Put the site plan in front of the whole crew, big enough that everyone sees the same thing.

Your safety message deserves production quality that matches its importance.

- Daily safety briefings
- Site plans & access maps
- Incident reviews & toolbox talks
- All-hands crew meetings

Emergency services

Briefings, maps, and public information wherever you set up.

Outdoor events & fundraisers

A big screen and sound for the program, the speakers, and the sponsors.

Portable billboards

Park it where the traffic is and put your message on a wall people can't miss.

DEPLOYS YOUR WAY

Trailer, ground, or risers.

Set it where it works for your site. The container goes where a truck can go.

Trailer mounted

Roll in and go. Easy to move as the job moves.

On the ground

Set it down outdoors, or inside a shop or warehouse.

On risers

Raise it up so a bigger crowd can see over the front rows.

What's in the box

- P2.6 LED video wall
- Full control room suite
- PA system
- Generator
- 20 ft steel container

Add what you need

- Tables & chairs
- AV production equipment
- Additional sound
- And more
